

Senior Clinical Embryologist

Afroditi Katouna received her Bachelor of Science degree in Biology from Aristotle University of Thessaloniki, Greece in 2002. She completed a Masters in Medical Science in Assisted Reproduction Technologies from the University of Nottingham, UK after earning a scholarship from Onassis Foundation.

Upon her return to Greece, she worked at the Transgenic Technology Lab of the Hellenic Pasteur Institute. Her job was to develop and implement methods of cryopreservation of mouse embryos in order to store and archive mutant strains. In 2007 Afrodit was recruited as embryologist at one of the largest IVF Units in Athens, Greece where she was trained in all assisting reproduction techniques. She was part of the embryologist team for 14 years and she gained experience in more than 40.000 cycles of assisted reproduction.

Afroditi is ESHRE certified Senior Clinical Embryologist. She has attended many workshops and conferences in the field of Assisted Reproduction and is an active member of the European Society of Human Reproduction and Embryology. She is the Lab Director of Iaso Thessaly - Assisting Nature Larissa IVF unit since 2020.
