

Evaggelos Papanikolaou | MD, PhD

Co-Founder Assisting Nature

BIOGRAPHY

Prof **Papanikolaou Evaggelos**, MD, PhD, is a Reproductive Medicine Specialist. Dr. Papanikolaou is a world class recognized Specialist in Fertility treatment and was appointed as a Lecturer of Obstetrics & Gynaecology in Aristotle University, Thessaloniki, Greece since 2015. He is **ESHRE** and **EBCOG** accredited as **Reproductive Specialist**.

He obtained his MD degree (1994) and became specialist in Obstetrics and Gynecology (2002) at the Medical School of Ioannina, University of Ioannina, Greece. From 2002 till September 2005 he was trained in Reproductive Medicine in the Centre of Reproductive Medicine at the University Hospital of VUB in Brussels under prof. P. Devroey, Prof Van Steirteghem and Prof Tournaye. Eventually, at 2005 he was appointed as a consultant in the above University clinic until end of 2006. The above university center is the pioneer clinic in the world regarding IVF and male infertility, since there was discovered ICSI, a technique which changed the root of in vitro fertilization in many aspects, leading in huge improvement in pregnancy rates.

He is granted two PhD diplomas and one Master in Reproductive Endocrinology. The first PhD degree was granted to him at the University of Ioannina in 2004. His thesis was “Premature ovarian failure and endothelial dysfunction” and his supervisor was the renowned Reproductive Endocrinologist Prof Kalantaridou S. In 2008 he became Doctor of Philosophy at the Free University of Brussels and his thesis was “Blastocyst culture in IVF”. He also obtained the degree of Master in Medical and Pharmaceutical Research from the Dutch speaking Free University of Brussels (VUB). He is an active member of the Belgian Society of Reproductive Medicine (BSRM), European Society in Reproductive Medicine (ESHRE) as well as in the American Society (ASRM). He is honored to be invited as a distinguished speaker at YALE University in 2014, USA.
